

The McDonough County Health Department would like to thank everyone that participated in the 2<sup>nd</sup> Annual Hand Washing Competition. This event was a huge success. According to the CDC, one of the most effective ways to stop the spread of disease-causing germs, is hand washing. Hand washing is not only important for food service employees, but the general public also. So remember wash your hands often and we all can be champion hand washers!!

The McDonough County Health Department would like to congratulate the following facilities for being Champion Hand Washers: Wal-Mart (food service), Café Aroma and Casey's General Store (Colchester)!! Everyone did a great job! Keep up the good work and keep those hands clean!!

1<sup>st</sup> Place (Wal-Mart)

2<sup>nd</sup> Place (Café Aroma)

3<sup>rd</sup> Place (Casey's General Store, Colchester): Not Pictured
