Illinois Project for Local Needs (IPLAN)

The Illinois Project for Local Assessment of Needs (IPLAN) is a community health assessment and planning process that is conducted every five years by local health jurisdictions in Illinois. Based on the Assessment Protocol for Excellence in Public Health (APEX_PH) model, IPLAN is grounded in the core functions of public health and addresses public health practice standards. The completion of IPLAN fulfills most of the requirements for Local Health Department certification under Illinois Administrative Code Section 600.400: Certified Local Health Department Code Public Health Practice Standards. The essential elements of IPLAN are:

1. An organizational capacity assessment
2. A community health needs assessment
3. And a community health plan, focusing on a minimum of three priority health problems.

According to McDonough County's 2020-2025 IPLAN priority areas include:

1. Obesity
2. Sexual Health
3. Access to Dental Health
4. Access to Mental Health

Mission

The McDonough County Health Department will provide essential public health services for a safe and healthy community through promotion, protection, and prevention.

Vision

The McDonough County Health Department will grow healthy lives and cultivate healthy choices to yield a healthy community.

McDonough County was ranked 39th in Illinois for Health Outcomes and 53rd for Health Factors for 2023 by the Robert Wood Johnson Foundation County Health Rankings report. Visit www.countyhealthrankings.org/Illinois for a complete detailed report or to compare to other Illinois counties.

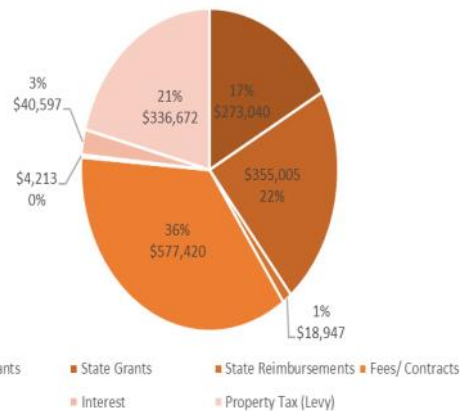

The 10 Essential Services of Public Health

1. Monitor health status
2. Diagnosis and investigate
3. Inform, educate, and empower
4. Mobilize community partnerships
5. Develop policies and plans
6. Enforce laws and regulations
7. Link people to needed services and assure care
8. Assure a competent workforce
9. Evaluate health services
10. Research

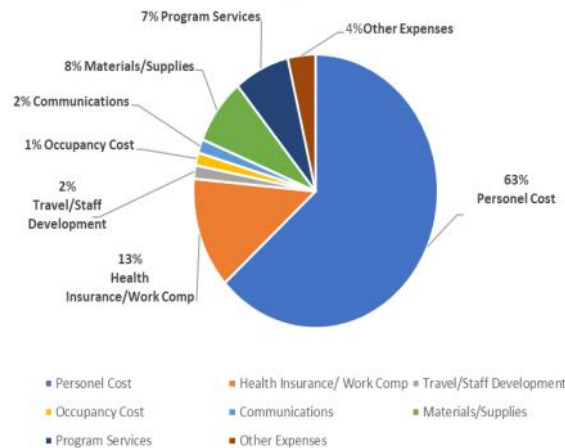

Public Health

- **Prevents** epidemics and the spread of disease
- **Protects** against environmental hazards
- **Prevents** injuries
