Illinois Project for Local Needs (IPLAN)

The Illinois Project for Local Assessment of Needs (IPLAN) is a community health assessment and planning process that is conducted every five years by local health jurisdictions in Illinois. Based on the Assessment Protocol for Excellence in Public Health (APEX PH) model, IPLAN is grounded in the core functions of public health and addresses public health practice standards. The completion of IPLAN fulfills most of the requirements for Local Health Department certification under Illinois Administrative Code Section 600.400: Certified Local Health Department Code Public Health Practice Standards. The essential elements of IPLAN are:
1. An organizational capacity assessment
2. A community health needs assessment
3. And a community health plan, focusing on a minimum of three priority health problems.

According to McDonough County's 2020-2025 IPLAN priority areas include:

- 1. Obesity
- 2. Sexual Health
- 3. Access to Dental Health
- 4. Access to Mental Health

2024 ACCOMPLISHTMENTS:
Midwest Breastfeeding Award of Excellence
Food, Water, & Sewage Program Review Audit
WIC Audit
Staff participated in a Medical Reserve Corps (MRC) Ad

The 10 Essential Services of Public Health

- 1. Monitor health status
- 2. Diagnosis and investigate
- 3. Inform, educate, and empower
- 4. Mobilize community partnerships
- 5. Develop policies and plans
- 6. Enforce laws and regulations
- 7. Link people to needed services and assure care
- 8. Assure a competent workforce
- 9. Evaluate health services
- 10. Research

Public Health

- Prevents epidemics and the spread of disease
- Protects against environmental hazards
- Prevents injuries
